“Half the software in the world is internal tooling”

For every line of code behind your favourite app, there's another line powering internal platforms and operations.

1. Massively important to success of business
2. Don't always receive the love they deserve.
Security / Stability can be afterthoughts.

Developer platform for internal data

Giving Data Analysts ^{UIs} Superpowers

“Build a complete scalable app themselves in an afternoon”

- Better UI
- 100x easier to build
- 10x faster to release
- Scalable and more stable.
